

Electricity & Energy 23 חשמל ואנרגיה 23

The 23th International Annual Convention
The Society of Electrical, Electronic and Energy Engineers in Israel
October 31, November 01-02, 2023, Eilat, Israel

Increase your Exposure to the Electrical and Energy Engineering Community Participate in the "Electricity and Energy 2023" Exhibition

Companies active in Electrical and Energy Engineering are invited to participate in the central exhibition of the professional community. The exhibition is open to visitors on Wednesday and Thursday, November 01-02, 2023, in the Herods & Dan Hotel, Eilat, in parallel to the popular and traditional 23th annual international convention "Electricity and Energy 2023".

In 2022 more than 2000 professionals attended, including: engineers; designers; developers; contractors of building, operating, and maintaining electrical and energy systems; communication and control operators; decision makers from the private sector and governmental authorities; and researchers from the academia.

Select a package from the following table. It offers prime exposure to your potential customers, meeting with prime leads, customer retention, and enhancement of your PR.

The packages include:

- Listing company name and logo in the program brochure, on the event website and in all publications.
- Company's profile in the events brochure, space in accordance with your package.
- Projection of exhibitor's logo during central events.
- Space allocation depends on your package and date of booking, register early to secure your preferred space
- You may submit a technical talk in accordance with the Call for Paper policy.
